Interpreting War News

By RIRKE L. SIMPSON
Associated Press Staff Writer
THE Nazis claim that they have broken through the Moscow defence lines on a front 300 miles wide and continuous. A gap that wide in Russian defences would be almost double the distance from Vyazma to Orel, which had been considered the extremities of the central battle front. Measured on an air line, it would expand the German drive from Rjev on the Volga, 80 miles north of Vyazma, to the vicinity of Kursk, something less than 100 miles south of Orel.

If the 300-mile figure is based on a curved front, bulging north-eastward between Vyazma and Orel, it would indicate that Tula, 125 miles almost due south of Moscow, has been captured by the Nazis.

It would be against normal military practice to estimate the width of an attack in any but air-line measurement terms. Stated in figures which followed the contours of an irregular front, the figures would be meaningless. War still at the bow of a salient and depth of penetration are the prime goals.

Russ Urge Diversion By British

By The Canadian Press
Great masses of Russian reserves, warmly dressed for winter action and bolstered by new tanks and fast planes, were reported moving up to the front today by Gen. Fedor von Bock's German armoured divisions on blood-soaked battlefields in a steadily growing threat to Moscow.

As the war ended its 10th week, the Russians appeared more urgently to force the issue to create a diversion by invading western Europe. Thus Red Star, the Soviet army newspaper, declared:

"Now the main force of the German army is chained in the east, creating most favorable conditions for activation of other fronts of the anti-German coalition."

Afield, Russia's sorely-pressed armies fell back to a shorter defensive front during the night and were reported to have moved down the 10-day-old German drive on Moscow, but Soviet dispatches admitted a grave new danger had arisen in the Vyazma sector, 125 miles west of the U.S.S.R. capital.

"The danger is great," said Red Star, "concerning the moment at which the German has numerical superiority in the all-important conflict on the central front."

German reports claimed "hundreds of thousands" of Russian troops, littered by the Soviet government examination, conducted at the Howard and McBride Family Parlors Friday by Dr. John W. Macgregor, assistant pathologist at the University of Alberta.

Coroner Dr. F. A. Keiller, stated after receiving the findings of the post mortem that there would be no inquest, as Haink's death was not a homicide, but a suicide.

Police veterans stated they could not recall a case of suicide where a similar method was employed.

Haink came in from the Edson district and engaged a room at the Mountbatten Hotel. He went to his room at 10 p.m. and it was not until 11 p.m. that he was found by the landlady, who called the police.

200 British Bombers Hit Nazi Industrial Targets

LONDON, Oct. 11.—(CP)—More than 200 British bombers roared across the Channel in waves during the night, as the Royal Air Force, taking advantage of improved weather conditions, renewed its offensive against Germany with thrusts at the industrial Ruhr and Rhine-land, it was announced today.

The air ministry said "powerful forces" of bombers took part in the attack and declared the main targets were at Cologne and Ruhr towns, with "subsidary" attacks on the German occupied ports of Rotterdam, Ostend, Dunkerque and Bordeaux.

Ten bombers are missing as a result of the offensive, the ministry said.

The raids on Germany were a result of the offensive, the ministry said.

New Order In Effect On Oct. 14

By JOHN BAUPHINE
OTTAWA, Oct. 11.—(CP)—The Dominion government took a tighter hold today on the pocketbooks of the people by ordering drastic restrictions on instalment buying and borrowing to divert more production and a bigger share of the national income to the war effort.

The restrictions, put into effect by the wartime price and trade board, take effect next Oct. 14, the day after Thanksgiving.

Not only sales of retail stores are affected, but the terms of all lending institutions, on far as instalment credit transactions are concerned.

Most important rulings—
1—The down payment on any goods affected by the order—other than the purchase of a house—must be at least one-third of the total cash price and never less than \$10 at time of delivery. The balance must be paid in full within 12 months, or in minimum monthly payments of \$5 each.

2—The minimum down payment on automobiles must be 20 per cent of the cash price. The balance must be paid in full within 12 months on cars costing less than \$500 and within 18 months on cars costing more than that.

3—The down payment on each car includes the value of any "trade-in" vehicle.

Both new and used goods come under the order.

MANY GOODS AFFECTED
The control ranges over a wide variety of commodities, including, besides automobile and automobile accessories, such things as home appliances, using electricity, gas or oil stoves, vacuum cleaners, sewing machines, electric fans, lawnmowers, food processors, blenders, and other kitchen appliances, all kinds of jewelry, cameras, binoculars and telescopes.

OTTAWA, Oct. 11.—(CP)—Following in alphabetical order are the goods and services which are subject to provisions of the new order. The list is not exhaustive, but it is intended to give a general idea of the scope of the new order made public today, restricting civilian purchases on the installment plan.

Churchill Plans Russian Statement

LONDON, Oct. 11.—(CP)—Prime Minister Churchill is expected to make a statement on the war situation in Russia at the next sitting of the House of Commons, probably on Tuesday.

Informed political observers said he may have received a first-hand report on Russia from Lord Beaverbrook, minister of supply, recently returned from Moscow.

Neither was there an indication of the size of the report. The normal course is made up of two or more divisions, perhaps 20,000 to 30,000 men.

The King recently expected that the report would be "a good one."

French Somaliland Feels First Shock

LONDON, Oct. 11.—(CP)—An authoritative source said today that a British raiding party, consisting of a grounded Italian plane at Djibouti, had been sent to French Somaliland.

The attack was made Oct. 3, the source said, and the British had recently evicted the Italian garrison of attacking the enemy "where we find him."

'COMMANDOS' SKILLED IN TOUGH WARFARE Training Of Shock Troops Corps Implies Britain Plans New Raids

LONDON, Oct. 11.—(CP)—A war office disclosure that Britain has organized a special corps of shock troops, skilled in sea landings and guerrilla warfare was taken in some quarters today as foreshadowing more and bigger raids upon German-occupied soil.

The first last March in which 71 German ships were sunk and

223 men captured on the Norwegian island of Lofoten, was said to be the type of war the new corps might be called upon to execute.

The rigorous regime of the corps—formed on short notice, the use of all infantry weapons, and small boat work—was suggested it was meant primarily for invasion.

London newspapers freely asserted the shock troops—called "commandos"—would be those

who "one day may storm enemy beaches," but there was no speculation as to when that day might be.

Neither was there an indication of the size of the corps.

Friendly Gesture Toward Christians Of America Made By Vice-Commissar

By A. T. STEELE

MOSCOW, Oct. 11.—(CP)—The recent acts and statements of the Soviet government emphasizing religious tolerance are of undoubted significance. They will give encouragement to Christians both inside and outside Russia. But the gain to the church is chiefly a moral one. Nothing has happened so far to indicate any sweeping change in the position of the church in this country. Officially the attitude of the government is precisely as it was before the Loozovsky statement was made.

Rolling Library Opens In Downtown Ceremony: Many View Innovation

All "done up" in its new blue and cream trim, and with enough books to supply children and adults with reading material for a month of Sundays, the city's new train library was the centre of wide interest on Friday evening. Parked at First and Jasper, next to the Bank of Montreal, the train library was officially opened during the evening by His Worship Mayor Fry.

Ald. A. Blair Patterson, chairman of the Public Library, and Hugh C. Gourlay, chief librarian, also spoke. About 300 people attended the opening ceremony, and later, inspected the unit.

During the evening 1,424 people inspected the unit, which will remain open for inspection on Saturday and Sunday at its present location. The street car used is a 32-year-old number that went into service in 1909 and ran 87,120 miles before being retired in 1938. With the seats removed, and natural wood shelves lining the walls, the car has room for the 1,500 new books on display on Friday evening, and the additional 1,500 purchased to keep the mobile library stocked.

It is not surprising that the state feels able to display a measure of confidence toward the church's power is only a shadow of what it was before the revolution. While Russia still has many millions of devout believers, the last two decades have seen the rise of an entire new generation, deeply indoctrinated with the Marxist concept of religion as the "opiate of the people."

Mother Of Baby Is Charged With Murder, Calgary

CALGARY, Oct. 11.—(CP)—A verdict that Victor Christopher, 31, charged with the murder of his son, Mr. and Mrs. Victor Bamber, Regina, died Oct. 1 from carbon monoxide poisoning, was brought in by a coroner's jury Friday.

Charged with murder of the baby, Mrs. Bamber was brought to the hospital from city police cells, but she did not testify. The homicide was removed to the Ponaka Mental hospital Thursday for observation. He is similarly charged.

Corporal J. Cameron, Royal Canadian Mounted Police, and Constable J. Bunker, R.C.M.P., testified that on Monday they found the body of the baby in a rooming house, suspected of being used to lead fumes from the exhaust of a car into the house.

ROAD REPORT

A.M.A. Safety Signal: Every hour is danger hour. Drive carefully.

Salisbury's road report: Roads are muddy at Lac la Poudre, Athabasca and Peace River. They are still impassable at many places in Peace River.

Barthold, Rochester, Waskesau, Two Hills, St. Paul and Rimby report rough roads, and at all other points the roads are good. No rain was reported at any point and the skies are clear generally.

The cottage in which Edgar Allan Poe wrote "The Raven" in Philadelphia has been restored as a literary shrine.

Ida Patterson stated that the question of a travelling library had been considered for the past three years, and with the appointment

of Hugh C. Gourlay as chief librarian, the idea was renewed and pushed to realization.

While the service to be given by the street car branch will be limited to areas where there are train rails, the service will be as efficient as that provided in the two libraries, he said.

Mr. Peterson expressed appreciation to Supl. Ferrer of the street railway department and to the library department and to the corporation, generous assistance and workmanship in refitting the train for library purposes.

GIVE GOOD SERVICE

Speaking of the service to be given, Mr. Gourlay stated: "Within the limitations imposed by the size of the car, we are going to try to give good library service to the district we are reaching. The unit will attempt to provide books and other literary material in line with the policies of the library board."

In addition to the shelves of novels, histories, biographies, travel and general non-fiction reading for adults and teen age children, there is a special "knee-high" set of sloping shelves with suitable and attractively illustrated books for the very young.

A reference desk is at the front of the car and the staff is at the back. Miss Grace McDonald and Miss Margaret Auer are special librarians with the unit, which will be conducted by one of the city's street car conductors.

U.S. Naval Crews To Man Ship Guns

WASHINGTON, Oct. 11.—(AP)—Authorized sources said today that if and when United States merchant ships are armed, trained naval crews almost certainly will man the guns.

The navy is much better prepared to provide such crews, officials said, than in 1917, when young naval enlisted men were trained for such duty after war was declared.

Chairman Carl Vinson (Dem., Georgia) of the House naval committee, said he was satisfied the navy would be able to provide the gun crews for merchant ships, not only because of the degree of skill required, but also because maritime unions probably would object to sailors being used for such purpose.

Qualified sources said the average gun crew aboard a merchant ship would be about 10 men under a petty officer.

Britain Trains Corps Of Shock Troops For War

Continued from Page One

On Sept. 28 Col. George Drew, Conservative leader in Ottawa, suggested in a broadcast from London that Empire shock troops should be trained for invasion of Europe in the vast spaces of Canada.

"What is required are fast, hard-hitting units which can be transferred easily by ship," he said. "If a successful offensive is to be launched in Europe it must be by fast, powerful land units working in close co-operation with air-borne parachute troops."

He added: "Canada offers space and freedom from air attack which would make it possible to give the right type of training for such an offensive force."

He said that the British and Canadian air training plan is centered in the early logistical phase to carry out the training.

CANUCK OFFICERS TO TAKE TRAINING

LONDON, Oct. 11.—(CP)—Small selected groups of Canadian officers will participate in command training, it was learned in London today after the war office disclosed that the British and Canadian air training plan is centered in the early logistical phase to carry out the training.

Head-picked Canadians will train at the special invasion training centre at a remote Scottish location, where the British army, the British and Canadian air training plan is centered in the early logistical phase to carry out the training.

INSTRUCT REGIMENTS

The officers will be trained in raiding tactics used by the British commandos, later returning to instruct their regiments in the Canadian Corps, where they will pass on their knowledge of beach assaults, special landing craft and invasion organization. The commandos had been one of the British army's deepest secrets but Canadian staff officers have been following them closely for months.

By signing officers of the commandos, the Canadian Corps is following its practice of taking advantage of every possibility for special training in new military developments.

MANILA, Oct. 11.—(AP)—Japan has demanded control of French Indo-China state railways, reliable reports from Saigon said today.

Simultaneously, the Japanese sharply reprimanded the Saigon aerial, where the French press had one of the most powerful radio directional finding sets in the Orient.

R.A.F. Planes Hit German Warships

STOCKHOLM, Oct. 11.—(AP)—British planes hit several German warships in an hour-long attack off Aland, on the southwest coast of Norway, Stockholm newspapers reported Friday night in dispatches from Norway.

Anti-aircraft fire finally drove the attacking planes off and they then raised plans at Harnam and a radio station near Aland, these sources said.

The Stockholm accounts did not give the time of the attack, but the admiralty reported Friday that the first air arm in an attack launched Wednesday hit four ships in a group of vessels carrying supplies to German forces on the western frontier.

The presence of the first air arm off Norway indicated presence of one or more aircraft carriers.

Motion Picture Has Large Role Patriotic Work

The motion picture industry is fulfilling its existence during the war by co-operating in every way possible to bring before the people not only the perils of modern warfare but also to create a spirit of patriotism among Canadians. J. Fitzgibbon, president of the Famous Players Canadian Corporation, stated in an interview Friday evening.

Mr. Fitzgibbon arrived here in the course of a tour-Canada tour designed for the purpose of conferring with approximately 300 theatre managers across the country to get first hand information upon local conditions.

He arrived from Lethbridge after a delay of several hours in Calgary where the plane was forced to make an emergency landing to repair one motor.

WITH DISTRICT MANAGER

He arrived here with F. H. Kershaw, Calgary, district manager for the corporation covering the whole province.

R. W. Boland, Toronto, vice-president and treasurer of the Famous Players organization, was stopped in Saskatoon and did not arrive until early Saturday morning.

In answer to a query regarding the part that the theatres are playing in Canada war effort, Mr. Fitzgibbon said that it was his most important one.

Not only are the theatres the medium through which people are provided entertainment during these trying times, but educational and instructive films are played before the public in every manner possible, he said.

The treasury department of Canada expects to realize about \$80,000,000 from proceeds of the 20 per cent tax imposed on entertainment shows last year, Mr. Fitzgibbon said.

EFFORT FOR VICTORY

His corporation is working for close co-operation with the federal department under which the motion picture is controlled during war time, to put forth every possible effort towards speedy victory, he stated.

Mr. Fitzgibbon announced that all employees in the 300 theatres across Canada will receive a cost-of-living bonus immediately.

He also stated that a plan is under way whereby his organization will

"He simply swept me off my feet when I found out he was wealthy."

Tobruk Defenders In 6-Month Siege Campaign Against Sawfly Arranged

CAIRO, Oct. 11.—(AP)—The British defenders of Tobruk celebrated today the completion of six months of a siege in which they have repulsed many Axis attacks and have struck back with numerous counter-blow.

It was on April 11 that the strongholds of the 30-mile fortified perimeter of Tobruk were closed hastily by various units which made their way there in the face of sudden attacks by powerful German armored columns which wrested the remainder of Italy's Cyrenaica block from the British forces.

Tobruk, 80 miles west of the Egyptian border, on the Mediterranean shore, has held firm ever since. The garrison in addition to fighting has been working long and hard to improve the defenses, until now it is far stronger than ever before.

Only the wounded and sick and certain special cases have been able to get to Alexandria by sea for leave. For the rest it has been a life of hard months of shelling, bombing, counterattacks, labor, and storms, iron rations and brackish water.

League Formed By Consumers At Gathering

Continued from Page One

Board of Public Utilities to utility companies and combines, were hurried by speakers.

Six speakers made brief addresses, setting forth their respective reasons for the necessity of a union of all consumers at the present time.

Chairman Patterson emphasized at the start of the meeting that the league, if formed, must be strictly non-political. He urged otherwise, he permitted to take control of the new body. Otherwise the movement would fail, the chairman warned.

Four of the six speakers each dealt with a basic commodity. DeLiberate manipulation to increase profits at the ultimate expense of the consumer in all cases and with no greater benefit to the primary producer in most cases, was charged.

BASIC NECESSITIES

Basic necessities of life in the food line were milk, meat, butter, eggs and bread, fruit and meat.

In addition, Mrs. J. A. Clarke reviewed a recent control while Mrs. F. C. Butterworth spoke on organizing of consumers.

That the Alberta Board of Public Utilities is merely "the servant of the utility companies" was charged by A. Fowle, who contended that prices for milk and butter are far too high. Mr. Fowle claimed that stocks of butter in the province are low and that the price is up one-half to one-third above the previous year and yet the price is based on no good basis. He claimed the Dominion price support maintains prices at the highest and not the lowest possible levels to the consumers.

Of the many combines in Canada, the fruit combine combines are the dirtiest, declared W. B. Moffatt, who introduced himself as a small importer of fruit.

FRUIT "TIED UP"

The fruit combine have all the pears and apples in the Okanagan and Kamloops areas "tied up," Mr. Moffatt charged.

He said that 100 tons of fruit were allowed to rot on the ground in order to hold up the price. He said that 40,000 boxes of apples rotted last spring so that the price could be kept up and the loss was charged back on the fruit farmer. This was done because cheese for the growers were held over.

The speaker said that a government law made it an offence for a grower to sell any of this fruit at a lower price.

Hundreds of tons of fruit rot but a grower cannot sell one cent's worth or he will be prosecuted by law. I know of a man driving through an orchard who was told by the farmer he does not sell him any fruit but told the visitor to take them. The man did and left 50 cents in the glove for the grower, said Mr. Moffatt.

IN FRUIT COMBINE

All the city fruit firms were in the combine, Mr. Moffatt claimed. He said the firm employed a lawyer who was instrumental in getting a city bylaw passed called the Fruit, Fish and Lumber bylaw, which prohibited \$100 license that forced the small importer out.

"I could give the name of this combine and I think you should know it," said Mr. Moffatt, but Chairman Patterson stated he felt that this would serve no good purpose. Others supported this view so Mr. Moffatt, humbly agreed to not mention the combine's name at this time.

Hundreds of cases of fruit are taken in the combine here in Edmonton and burned so that there will be no reduction in prices and the Dominion government seems to back up the fruit dealers in this as Ottawa backed the B.C. growers in "living up the Okanagan," Mr. Moffatt contended.

MEAT PACKING

In dealing with situation as regards meat, Mr. Duncanson expressed great sympathy and said he had made a personal survey of the packing plants here and was appalled before reaching the conclusion that the meat packing industry is "taking advantage of the war to exploit the citizens of Edmonton."

Mr. Duncanson said the plant was making as high as 50 per cent profit on a store weighing 400 pounds. Price of hogmeat has been doubled since the start of the war, he claimed.

Mrs. Butterworth said she thought

British Ambassador Returns To U.S.

Holding a cigarette, Lord Halifax, British ambassador to the United States, right, apparently is amused by a reporter's question during a press interview on his return to the United States after spending a number of weeks in England. He and his wife had just stepped off the transatlantic Dixie clipper at LaGuardia airport.

It appeared the meeting was being held two days after the lecture by nutrition experts, who contended more than 60 per cent of our citizens are under-nourished. She said many people are not nourished because salaries are not elastic enough.

Setting out advantages of organization she reminded her listeners there are numerous jobs open in governments at all times.

ALL CONSUMERS

"We are all consumers regardless of what other interests we may have and wouldn't it be fun to have consumers' lobbies?" the speaker asked.

Ascertaining that no governments act without pressure, Mrs. Butterworth said there exists pressure groups of the who produce and those who market.

"Now let us have a pressure group of consumers," she urged amid applause.

She said it will probably be impossible to protect against rising prices at this time. In reply to this charge the speaker said it is logical that "the more we pay for food and clothes the less we will have to feed and clothe the men who fight and if we lose the war we lose it."

Mrs. Butterworth urged a campaign of education, wearing food and wearing apparel and acknowledged gratefully an offer by the public library to assist the league with reading material on the subject.

IN UNITED STATES

She stated that consumers' leagues were doing a marvellous job in the United States.

Tenants who believe they have legitimate grounds for protesting rising rent costs should fill in the designated spaces within the leaflet.

Mrs. J. A. Clarke advised, Mrs. Clarke briefly described the fight made by the United Council of Women for a rent control board for Edmonton after the city council had turned down the appeal.

Mrs. L. C. Fawcett charged that prices of eggs and bread were away out of line with actual costs and also charged that distributors were making excessive profits.

Controller Lauds Metal Producers For War Efforts

TORONTO, Oct. 11.—(CP)—George C. Bauman, federal metal controller, said here Friday that Canada's non-metal producers without regard to their own features, have been drawing on their high-grade resources in their effort to step up output to the maximum possible.

Efforts of the producers, Mr. Bauman told delegates at conclusion of the two-day session of distributors, representing industrial area of the North American continent, "is an extremely important contribution to the war effort and one which the government greatly appreciates."

Alberta Hawks Being Held Up At U.S. Border

HIBBING, Minn., Oct. 11.—(CP)—Joe Farrell, Chicago Black Hawks official, said Friday three players of his team are being held at the international border awaiting sanction of Canadian military authorities to cross.

The Hawks official said Forward Bob Carpenter and Defenseman Art White, both of Edmonton, and Forward Alvin Karpis of Lethbridge, have obtained passports but are being held at the international border awaiting sanction of Canadian military authorities. There was no indication where the three men were held.

(At Edmonton, Greater & Royal English assistant registrar of the Alberta war services board, and the board had granted passport authority to Karpis.)

BENTLEY GET OVER

On Wednesday Hawks reported Max and Doug Bentley, brothers from Delta, Sask., also were held at the border but Farrell said they were in Hibbing and waiting under Manager Paul Thompson.

Farrell said Johnny Chad of Prince Albert, Sask., a forward, who with Hawks last season, had joined the Canadian army and will not be available this year.

The Hawks were counting on three youngsters attending the camp for trials—Paul Pinta and George Johnson of Winnipeg and Roy Hawkey, Toronto. Farrell said, however, that these three youngsters are liable to compulsory military service in Canada and that Hawks have given up hope they will be able to attend camp.

OTHERS IN CAMP

Other players at the Hawks' camp are goalie Sam La Presti and Horace Lamarche, both of Montreal, and Joe Cooper, and Forward Joe Parker. Bill Thompson, forward, is in camp, but he will remain here for American training camp.

Dutton declined to identify the professionals who had signed for the Hawks. He said, however, that the Hawks had purchased last season from Springfield, Ill., of American professional hockey.

From the Americans' professional ranks, he checked in Dutton and veteran Hully Smith is expected soon.

Tornadoes Drop First Game 7-6

CALGARY, Oct. 11.—(CP)—Quick thinking on the part of Mer Kilgip, shifted a backfielder, on the last play of the game, enabled North Side Hizzards to take a 7-6 victory over West End Tornadoes Friday night in the first of the two game total-point series that will decide the championship of the Calgary Junior Football League.

With less than five seconds left to play, Bob Weaver, back, a high kick that looked good for a rough, would have tied the score at 7-7 but the alert Kilgip moved a side catch and returned the kick to the end zone.

Kilgip will start the second and final game at the stadium at 8:30 p.m. Monday night. Thinking day day, with a surprise, in the first game, the players will advance into the provincial final against Maple Leafs, champions of the Edmonton Junior League.

Tornadoes were without one of their outstanding stars, Bob Perry, who is now attending University of Alberta.

Dutton Signs Jack McPherson For Americans

PORT ARTHUR, Oct. 11.—(CP)—Mervyn "Bob" Dutton, manager of New York Americans, announced Friday that he has signed two western Canadian amateurs and two professionals to National Hockey league contracts.

The amateurs are Jack McPherson, former centre star with the Edmonton Athletic club, and Harry Watson, left wing with the Saskatoon Quakers last year.

Dutton, who is in the United States, is expected to return to Canada this week but he will remain here for American training camp.

Dutton declined to identify the professionals who had signed for the Americans. He said, however, that the Americans had purchased last season from Springfield, Ill., of American professional hockey.

From the Americans' professional ranks, he checked in Dutton and veteran Hully Smith is expected soon.

**Air Superiority
Vital To Victory**

LONDON, Oct. 11—(CP)—Gen. Jan Christian Smuts, prime minister of South Africa, told pilots graduating from the joint Royal Air Force and South African Air Force training school Friday they were only the vanguard of thousands of men who would pass through schools now established or to be established in South Africa. The BBC reported last night. He told the pilots that air superiority still is one of the vital factors in attaining victory.

150 Canadian Women Selected For Duty With C.W.A.A.F.

OTTAWA, Oct. 11.—(CP)—The military announced Friday evening that the first 150 women recruited into the Canadian Women's Auxiliary Air Force are being sent to report at the nearest Royal Canadian Air Force recruiting centre for enlistment.

These 150 women, the first recruits to this service, have been selected by two travelling selection boards which conducted their tour on Tuesday, the announcement said.

Simultaneously the military announced that Princess Alice has accepted appointment as honorary air commodant in the C.W.A.A.F. "practical evidence of her interest in the new Canadian women's service."

The first 10 women called for enlistment will be the nucleus of the C.W.A.A.F. in which recruiting

later will be extended to a rate of 150 a week, the announcement said.

After enlistment the recruits will attend the first course of instruction at the C.W.A.A.F. training depot in Toronto Oct. 22.

For ADMINISTRATION

"The will receive five weeks of instruction from officers on the R.C.A.F. and from experienced Women's Auxiliary Air Force officers in Canada from Britain for this purpose."

the social round

Daughters Who Dare

By Rob Eden

June glanced across the table at Lura Case, a tall, striking blond girl who was smiling at Roy. There was some bitterness in Lura's smile, June thought. And she knew why.

She'd had no chance to telephone her own home because of the time she was out of the house. It wasn't safe to call her brother from the house, anyway, as she never knew who might be listening. June felt she had to get out of the house, but being that she was Dolly and Lura were her friends, she had to tell him she had found the jewelry—and she had to do so before he would return home, as quickly as possible.

After another futile attempt to get Dolly she went downstairs to the kitchen where she found Roy. He was sitting at the table, looking at the jewelry she had found. He was looking at it with a look of surprise.

There was a hum of small talk about the table and June prepared to be bored, as she usually was at such affairs, when she heard a girl

was some bitterness in Lura's smile. Just as June thought about it, she knew why. Lura had gone out with Roy for two years before he suddenly began to show all his intentions to June. Many people had expected Lura and Roy, but June had been told June would have liked to be friends with Lura, but Lura gave her no chance.

"You lost your pearls?" June exclaimed. "That's a shame. I'm really very sorry."

"I'm not worried," Lura returned. "They're gone, but I'm sure they'll be found. I left the string there but took it to the police."

But the same, I'd hate to lose anything of mine that way," June said. "If they are found, I'll be sure you'll get another pair. I wouldn't be like having something that's gone."

"They'll probably show up here soon," Lura said. "The police always get things like these eventually."

June felt a chill sweep over her. "This was such a professional job," Roy had been an outside game, Roy suggested.

SOMEONE WE KNOW

"You can't tell where crooks show up," Lura's eyes seemed to June to be staring into hers, and she turned her head. "They might even be someone we know."

CHAPTER FOUR

Despite Roy's fears that they might be late, other guests were arriving all the time. June was the first to arrive. She was smiling at Roy. There was some bitterness in Lura's smile, June thought. And she knew why.

several places down mention 'jewelry robbery'. The words pierced her heart like a knife and she sat forward in her chair, listening eagerly. Other guests, too, who had come from the newspapers had extra editions out about it.

She was frantic for more details, and wondering how she could get them when Marjorie Thompson, across from her, saved her the trouble of asking.

For goodness sake, Mrs. Thompson spoke up. "What robbery are you talking about? Please speak a little louder. Mr. Guthrie so we can all hear."

Guthrie explained that the Tracy jewelry store—a store they all knew as it was the most exclusive shop if its kind in the city—had been held up by three men at the point of gun.

"According to the papers, they were all killed," he went on. "Apparently they knew the place very well—probably had visited it several times—because everything was well covered off without a hitch. One stood guard at the door, the two others cleared out the cash. The most valuable things not taken were Mr. Tracy's own safe. They got considerable money and the most valuable jewelry in the place."

Did they get away? someone asked.

"When they were ready to leave, one walked out of the place and vanished," Guthrie explained. "No one saw them after."

Lura leaned her head back. "Roy said," she told me about it when you were upstairs."

Opportunity In War Production Open To Farmer

Declaring that Alberta farmers are playing an important role in an unassuming manner in the battle of war production, J. B. McCreary, deputy minister of agriculture, advanced the opinion that a higher level of prices soon will be established for many agricultural products. Expression of such confidence was given in an address on behalf of the University of Alberta Extension department.

He expressed fear that the labor situation might prove a troublesome factor, but felt that the general position of the farmer will be "improvable" better in the third year of the war than it was in the first two years. As from 1940, the position of the farmer will be improved, for the fact that the agricultural products will be sold at a higher level of prices than in the first two years.

He contended that farmers' own business will be profitable and will be appreciated more and more as the critical stages of the war are reached. They must, he said, be ready to meet the needs of the army and the civilian population during the war. To help feed a mounted and standing army will be their task when victory has been achieved.

Mr. McCreary forecast a new peak in Alberta hog marketing for the current year, estimating that the province would mark the approach of about 2,000,000 hogs this year as against an actual total of 1,450,000 in 1940. He said that the hog industry was a challenge to the farmer, but that the farmer's own business will be profitable and will be appreciated more and more as the critical stages of the war are reached.

Mr. McCreary further pointed out that there are about 5,000,000 bushels in this province, with an average production of 100 bushels per acre. If we use it to make a bushel of wheat, the average yield per acre must be increased. This can be done by better care, improved seed, and better farming, he declared.

Greater quantities of Canadian grain are required in the United States, he said. "Although our dairy industry has been organized and developed for the production of creamery butter, we could produce more cream with very little effort if it is required. The dairy industry is a challenge to the farmer, but that the farmer's own business will be profitable and will be appreciated more and more as the critical stages of the war are reached.

When making a splendid show of the production of the dairy industry, we could produce more cream with very little effort if it is required. The dairy industry is a challenge to the farmer, but that the farmer's own business will be profitable and will be appreciated more and more as the critical stages of the war are reached.

Big Causes Of Fire Outlined By Macgregor

The most frequent causes of fire were outlined today by Fire Chief James Macgregor of the city fire department, in stressing extra precautions to be taken in connection with Fire Prevention Week.

First on the list is chimney fires, he said. "In second position are fires resulting from defective or overloaded chimneys and flues. The third major fire cause is defective electrical wiring and equipment. Spontaneous ignition fires, while only one-third as frequent as fire and chimney fires, caused nearly as much damage.

"It is important to consider these facts now for this is Fire Prevention Week. Practically all fires resulting from these four causes can be prevented. Such fires must be prevented if we are to conserve our resources for the national defense program," he concluded.

The following is a summary of fires occurring throughout Canada for 1940, as summarized by the Dominion fire commissioners. Property loss amounted to \$22,752,000 and the number of fires amounted to 46,620.

Loss of lives numbered 243 out of which 122 were children. Many of these tragic deaths occurred when parents left their children alone in their homes.
